RE: Downed Animals Trade
DOCKET NUMBER 98P-0151/CP1

Beyond the incredible cruelty to and unnecessary brutality to living creatures, the fact that industry and government officials allow the unsanitary handling of sick animals is appalling.

There must be stronger laws to prevent these atrocities and these producers obviously need to be carefully monitored by government officials at all times.

Please grant the farm sanctuaries petition to prohibit the slaughter and lack of care of downed animals.

Sincerely,

Nanette Jekel
